

TH Marble website

A proposal for TH Marble & Granite: what I will build, how we will work, what it costs and when it will be ready.

PREPARED FOR	DATE	VALID FOR	ESTIMATED LAUNCH
TH Marble & Granite	13 Sep 2026	14 days	5 Oct 2026

Where you are now

TH Marble & Granite has supplied and exported Egyptian marble and granite since 1998, with projects across Africa, Asia and Europe. Most new enquiries come by phone and WhatsApp, and international buyers have no place online to browse the stone range or see finished work. The company needs a website that shows its collection, proves its track record and turns visits into quote requests.

What this project will achieve

- Show the full marble and granite collection with a page for every stone
- Turn visitors into quote requests through a form and one-tap WhatsApp
- Reach export buyers with English, French and Spanish versions

Scope

Included

- Home page with intro video, collection preview and project highlights
- Marble and granite pages with a section for each of the 14 stones
- Projects gallery, About page and Contact page with a quote form
- Mobile layout, basic SEO, and an admin panel to edit content

Not included

- Photography (stone photos supplied by the client)
- Domain, hosting and third-party subscription fees
- Translation of content (translated text supplied by the client)
- Ongoing maintenance after the support period

Anything outside this list is quoted separately before any work starts on it.

How we will work

PHASE	WHAT HAPPENS	YOU RECEIVE
1. Discovery	Kick-off call, requirements, sitemap and user flows	Kick-off document and project plan
2. Design	Desktop and mobile designs for the agreed screens, 2 revision rounds	Approved designs
3. Build	Development, content setup and testing on a private preview link	Mid-project report and preview link
4. Launch	Final testing, deployment, handover and a training session	Live product, files and admin guide

You can follow every milestone, deliverable and change request in your client portal on my website.
