Subject: Proposal for [project name]: [one-line outcome, e.g. online booking for your clinic]

Hi [first name],

Thank you for the call on [day]. I enjoyed hearing about [specific detail from the call, e.g. how your team handles bookings over WhatsApp today].

As promised, my proposal for [project name] is attached. In short:

- **What I will build:** [one sentence, e.g. a booking website with an admin dashboard for your staff]
- **Result for you:** [one sentence tied to their goal, e.g. patients book online and your team stops taking bookings by phone]
- **Timeline:** about [X weeks], with launch around [date]
- **Investment:** [currency amount], paid in three stages (50% to start, 25% at design approval, 25% before launch)

The proposal also covers the exact scope, the revision rounds included, and how changes are handled, so there are no surprises later.

If it looks right, reply "approved" and I will send the contract. If you would like to adjust the scope or the budget, I am happy to walk through it on a 15-minute call: [booking link].

The prices in the proposal are held for 14 days, until [date].
