

Terms and conditions

These terms are part of the service agreement for TH Marble website between TH Marble & Granite (the "Client") and Ziad Hossam Ibrahim (the "Service Provider").

1. Services

The Service Provider will deliver the work described in the accepted proposal for TH Marble website (the "Project"). The proposal forms part of this agreement. Work that is not listed in it is outside the scope.

2. Timeline

The Project starts on 23 Sep 2026 and is planned for completion on 5 Oct 2026. The timeline moves forward day for day when the Client delays payments, feedback, content or access.

3. Fees and payment

The total fee is EGP 42,000, paid in the instalments set out in the payment schedule below. Invoices are due within 7 days of issue by Bank transfer, InstaPay, Vodafone Cash. The deposit secures the project slot and is non-refundable once work has started. Work on each phase begins after the matching payment clears.

4. Late payment

Unpaid invoices incur a late fee of 2% of the overdue amount for each month or part of a month they remain unpaid. If an invoice is more than 14 days overdue, the Service Provider may pause all work until it is paid, and the timeline moves accordingly.

5. Revisions

Each milestone includes 2 rounds of revisions. A revision round is one consolidated list of changes to existing work, sent in a single message. Further rounds are billed at EGP 400 per hour.

6. Edits and change requests

Every edit requested after a milestone is approved, and every new feature, page or change in direction, costs extra and is quoted in writing before work starts. Small edits (text, image or colour swaps under 30 minutes) are billed at a flat EGP 200 each. Larger changes are billed at the hourly rate or as a fixed quote. Changes are submitted through the client portal or by email, and no change is made until the Client approves the quote. Approved changes may extend the timeline.

7. Rush requests

Work the Client asks to be delivered faster than the agreed timeline carries a 30% surcharge on that work, if the Service Provider can accept it.

8. Client responsibilities

The Client provides content, brand assets, account access and one person with authority to approve work. Feedback is due within 5 business days of each delivery. The Client confirms it owns or is licensed to use everything it supplies.

9. Acceptance

The Client reviews each deliverable within 5 business days and either approves it or sends one list of revisions. A deliverable with no response in that time counts as approved. Launching or using the work in public also counts as approval.

10. Third-party costs

Domains, hosting, paid plugins, fonts, stock media, API usage and other subscriptions are paid by the Client directly or reimbursed at cost. They are not part of the fee.

11. Ownership

When all fees are paid in full, the Client owns the final deliverables made for this Project. Until then, all rights stay with the Service Provider. General tools, code libraries and know-how the Service Provider used before or outside this Project remain the Service Provider's property, and the Client receives a permanent licence to use them as part of the deliverables.

12. Portfolio

The Service Provider may show the finished work and a short description of the Project in a portfolio, social media and proposals, without sharing confidential information. The Client can ask in writing to keep the Project private.

13. Confidentiality

Both parties keep private any business, technical or financial information they receive from the other, during the Project and after it ends.

14. Support and warranty

For 30 days after launch, the Service Provider fixes defects in the delivered work at no cost. A defect is something that does not work as approved. New features, content updates and problems caused by other people's changes, hosting or third-party services are billed separately.

15. Paused projects

If the Client does not respond for 30 days, the Project is paused and the Service Provider may take on other work. Restarting it costs 10% of the remaining fee and depends on availability.

16. Termination

Either party may end this agreement with 14 days' written notice. The Client then pays for all completed phases in full, the in-progress phase in proportion to the work done, and a cancellation fee of 20% of the unpaid remainder. The deposit is not refunded. Ownership of finished work passes to the Client once these amounts are paid.

17. Liability

The Service Provider's total liability under this agreement is limited to the fees the Client has paid. Neither party is liable for indirect losses such as lost profit, revenue or data. The Client is responsible for keeping backups of its own content.

18. Independent contractor

The Service Provider works as an independent contractor, chooses how and when to do the work, and is responsible for its own taxes. Nothing in this agreement creates employment, partnership or agency.

19. Events outside our control

Neither party is responsible for delays caused by events it cannot reasonably control, such as outages, natural disasters or government action. The affected party informs the other promptly.

20. Governing law

This agreement is governed by the laws of the Arab Republic of Egypt. The parties first try to settle any dispute by talking in good faith. If that fails within 30 days, the courts of Cairo have jurisdiction.

21. Whole agreement

This agreement, the accepted proposal and any signed change requests are the full agreement between the parties. Changes to this agreement must be in writing and accepted by both parties. Email counts as writing.

Rates for extra work

REQUEST	PRICE
